Nero Fiddled While Rome Was Burning.

“Criminal indifference” you say. And you are right. But how much worse is it than what you are doing every day? You have read these advertisements of the HARTFORD FIRE INSURANCE COMPANY for a year or more, telling you that you ought to know all about the company that carries your fire insurance, but have you done anything about it? Many have, but the majority of policy holders have done nothing about the selection of a company. They are still “fiddling.”

In the history of fire insurance in America, a large majority of the fire insurance companies organized have failed or retired from business. To be insured in a company like the HARTFORD, that has been in business a hundred years and will be in business a hundred years from now. costs no more than to be insured in one that may go out of business next week.

It's your property which is to be insured. It's your money that pays the premium. You are to get the indemnity in case of fire. In short, it's your business and this matter is up to you. Why then, don't you DO something? And here's what to do. At the bottom of this advertisement is a coupon. Cut it out, write in the name of your insurance agent or broker, sign your name and mail it to him.

Any agent or broker can get you a policy in the HARTFORD if you tell him to do so. Don't be a “fiddler” in the face of fire. Cut out, fill in and mail the coupon. DO IT NOW.
